経糸と緯糸に同色・同素材を用いて織り上げました。植物繊維の綿と再生繊維のレーヨン
を先染めした後に糊付けした「シルク感」のある糸を、ベーシックな平織で仕上げています。

This wallpaper is made using the same colors and materials for the warp and weft. Cotton, which is a plant fiber, and rayon, which is a recycled fiber, are yarn-dyed and then starched, resulting in a silk-like thread, which is woven into a basic-looking plain weave.
